Workforce Development Plan 2020-2025

Arkansas Department of Health July 15, 2021

ADH Workforce Development Plan Purpose & Introduction

Introduction

Training and development of the workforce is one part of a comprehensive strategy toward agency quality improvement. Fundamental to this work is identifying gaps in knowledge, skills, and abilities through the assessment of both organizational and individual needs and addressing those gaps through targeted training and development opportunities.

This document provides a comprehensive workforce development plan for the Arkansas Department of Health (ADH). It also serves to address the documentation requirement for Accreditation Standard 8.2.1: *Maintain, implement, and assess the health department workforce development plan that addresses the training needs of the staff and the development of core competencies.*

In this plan

The ADH Workforce Development Plan contains the following topics:

Topic	See Page
Learning Culture	2
Workforce Profile	3
Continuing Education Requirements	4
Training Needs	5
External Professional Development Relationship	6
Goals, Objectives, and Implementation of Plan	7
ADH Training Courses Available	9
ADH Curricula & Training Schedule	10
Evaluation & Tracking	11
Core Competencies	12
Appendices	20

Questions

The Human Resources Branch is responsible for all training and workforce development initiatives, including the maintenance of this plan.

For questions about this plan, please contact:

Tracy D. Bradford, Director; Sherri Simpson or Trisa Mitchell, HR Managers Human Resources Office 4815 West Markham St., Little Rock, AR 72205

Phone: 501-280-4099

Learning culture

The Arkansas Department of Health's philosophy on training and education is to provide employees with an ongoing mechanism to enhance their skills and knowledge, leading to job mastery and applied professional development; ultimately resulting in better production in the workplace. The Workforce Development Plan roadmaps the agencies' goals and objectives to maintain a highly skilled workforce that is prepared to deliver public health essential services and respond to public health emergencies.

Workforce policies

Policies guiding workforce training and development can be located on the agencies' Policies and Procedures intranet site library, in the Human Resources cabinet.

Workforce Profile

Introduction

This section provides a description of the Arkansas Department of Health's current and anticipated future workforce needs.

Current workforce demographics

The table below summarizes the demographics of the agency's current workforce as of July 2019:

Category	#
Total # of Employees:	1968
Gender: Female:	1533
Male:	435
Race: Hispanic:	37
American Indian / Alaska Native:	5
Asian/Hawaiian:	39
African American:	508
Caucasian:	1379
More than One Race:	0
Other:	0
Age: <20:	2
20 – 29:	186
30-40:	378
40 – 49:	549
50 – 59:	558
>60:	330
Primary Professional Disciplines/Credentials:	
Leadership/Administration:	39
Nurse:	398
Registered Sanitarian/EH Specialist:	113
Epidemiologist:	31
Health Educator:	5
Dietician:	31
Social Workers:	3
Physicians:	10
Pharmacist:	7
Veterinarians:	1
Attorney:	6
Dentist:	1
Physician Assistant:	3

In the 2019 Association of State and Territorial Health Officers Profile Survey, it was noted that the average age of ADH employees was 47 years, the median age was 48 years, and the average number of years of service was 13. Of full-time classified employees, 13% will be eligible for retirement in fiscal year 2021, 15% will be eligible in 2022, and 16% will be eligible in 2023.

Continuing Education Requirements (by discipline)

Multiple public health-related disciplines require continuing education for ongoing licensing/practice. Licensures held by staff, and their associated CE requirements, that are required to maintain their position at ADH are shown in the table below.

Discipline	AR CE Requirements (as of 2019)
Nursing - RN	15 contact hours every 2 years
Registered Sanitarian	2 CEU's every two years/1 CEU = 10
Health Educator (CHES/MCHES)	75 CECH every 5 years
Certified Public Health Practitioner	50 hours every 2 years
Physician	20 hours every year
Dietitian (RD, LD)	75 CPEUs every 5 years by the Commission on Dietetic Registration (CDR), 12 CEU's every year (ADLB)
Pharmacist	30 CE hours every 2 years. 12 hours required to be live and 12 hours required to be ACPE approved. If the 12 live hours are ACPE approved, both requirements are considered met.
Emergency Medical Technician, Advanced EMT, Paramedic	EMT 20 hours of approved CE, Advanced EMT 25 hours of approved CE, Paramedic 30 hours of approved CE.
Attorney	12 CLEs annually, including one hour of ethics.
Physician Assistant	100 CME hours every 2 years and pass the PANRE once each 10 th year.
Veterinarian	20 CEs annually.
Dentist	50 CEUs every 2 years (even years).

Training Needs

Introduction

This section describes both identified and mandatory training needs within the Arkansas Department of Health.

Mandatory

training

The table below lists training required by the agency and/or by state or federal mandate:

Who	Frequency
All Staff	Annually
All New Employees	Within 2
	weeks of hire
	Within 6 months of hire
<u> </u>	Within 6
	Months of hire
Tenured Supervisors and	Must
Managers	complete update training
	every 5 years
All Staff	Within 3-6
	months of hire
All Staff	Within 3-6
	months of hire
All Staff	Quarterly
All Staff	Quarterry
Environmental Health	Within 18 months of hire;
	then required every 5 years
Specialists	then required every 5 years
Environmental Health	Within 18 months of hire;
Specialists	then required every 5 years
Environmental Health	Within 18 months of hire;
Specialists	then required every 3 years
Environmental Health	Within 18 months of hire;
Specialists	then required every 4 years
	All Staff All New Public Health Nurses All new Supervisors and Managers Tenured Supervisors and Managers All Staff All Staff All Staff Environmental Health Specialists Environmental Health Specialists Environmental Health Specialists Environmental Health Specialists Environmental Health

External Professional Development Relationship

University of Arkansas Medical Sciences – College of Public Health

Masters of Public Health (MPH)

The MPH degree is a forty-two (42) semester credit hour program designed to accommodate the student who wishes to obtain an area of concentration in traditional public health specialties. Available specialty tracks include biostatistics, epidemiology, environmental and occupational health, health behavior/health education, and health policy and management.

Post-Baccalaureate Certificate in Public Health (PBC)

This program of study requires eighteen (18) semester credit hours. The six (6) MPH core courses (Introduction to Public Health, Biostatistics I, Environmental and Occupational Health, The Health Care System, Introduction to Health Behavior and Health Education and Epidemiology I) comprise the coursework for the Post-Baccalaureate Certificate program.

Doctor of Public Health (DrPH) In Public Health Leadership

The Doctor of Public Health in Public Health Leadership provides extensive training in the public health sciences, public health practice, and leadership skills necessary to respond to the rapidly shifting, sometimes unanticipated challenges of the public health and health care systems.

ADH Employees on Faculty at UAMS

Dr. Lindy Bollen – Adjunct Instructor, College of Health Professions

Dr. Jennifer Dillaha - Assistant Professor, COPH Department of Health Policy and Management

Ms. Sherian Kwanisai, Instructor, College of Nursing

Ms. Shirley Louie - Instructor, COPH Department of Environmental and Occupational Health

Dr. Richard McMullen - Assistant Professor, COPH

Dr. Leonard Mukasa - Assistant Professor, COPH Department of Epidemiology

Dr. Naveen Patil - Instructor, Department of Internal Medicine

Ms. Rupa Sharma – Instructor, COPH Department of Epidemiology

Dr. Bala Simon – Associate Professor COPH

Goals, Objectives, & Implementation Plan

Introduction

This section provides information regarding workforce development goals and objectives of the agency, as well as resources, roles, and responsibilities related to the implementation of the plan.

Roles & responsibilities

The table below lists individuals responsible for the implementation of this plan as well as the associated roles and responsibilities.

Who	Roles & Responsibilities
Human Resources	Responsible for administering the agencies' personnel systems and establishing necessary policies, procedures and regulations to ensure system uniformity in accordance with state and federal law. Human Resources provides for the efficient use of state resources and the effective management of Classification and Compensation, Recruitment and Retention, Training, and Technical Support.
	Ensures fairness, equity and uniformity in the application and administration of all personnel policies, rules and regulations and the optimal use of the agencies human capital.
	Also provides guidance to the Executive Management team regarding workforce development and assists in creating a culture that is conducive and supportive of learning. Human Resources works to find appropriate training/professional development opportunities for staff and is responsible for informing supervisors of workforce development needs. plans, and issues.
Center/Branch, Board and Commission Directors	Responsible to the Executive Management for all employees within their centers/branches. Supports coaches, mentors, supervisors, and/or employees to assure that appropriate training resources and support structures are available within the center/branch. Identifies high potential employees as part of agency succession plan.
Supervisors	Responsible to their managers and employees to ensure that individual and agency-based training initiatives are implemented. Works with employee to develop an individualized learning plan and supports the implementation of the plan (i.e. time away from work, coaching, opportunities for application, tuition reimbursement). Identifies high potential employees as part of agency succession plan.
All Employees	Responsible for their own learning and development. Work with supervisor to identify and engage in training and development opportunities that meet their individual as well as agency-based needs. Identify opportunities to apply new learning on the job, relevant to their position.

Goals and Objectives

The information below shows the agencies' five goals and eleven objectives for addressing training and development needs. They are based on the results of the 2017 Association of State and Territorial Officers Public Health Workforce Interest and Needs Survey as well as a SWOT (Strengths, Weaknesses, Opportunities, and Threats) Analysis by an ADH internal workforce development workgroup.

Goal 1: Prioritize Succession Planning

Objective 1.1: Research best practices and identify strategies for succession planning

Objective 2.1: Facilitate, with ADH Leadership, the development of a succession planning program

Goal 2: Invest in Training for the Existing Public Health Workforce

Objective 2.1: Establish new training platforms that allow more virtual and interactive training experiences **Objective 2.2:** Look at best practices from the pandemic response and identify those that could be used to revise HR policies and procedures

Goal 3: Enact Workplace Policies and Practices that Support Job Satisfaction and Improve Retention

Objective 3.1: Evaluate Supervisor Training and make identified modifications

Objective 3.2: Develop a system to collect data regarding reasons for voluntary employee turnover

Objective 3.3: Review employee engagement in workplace wellness activities to identify opportunities

Goal 4: Address Areas for Improving Employee Engagement

Objective 4.1: Implement annual surveys of employee training needs and identify opportunities to address the needs identified

Objective 4.2: Identify, develop and implement opportunities for workplace policies and practices that reward creativity and innovation

Goal 5: Integrate Core Competencies for Public Health Professionals with the Performance and Evaluation system

Objective 5.1: Develop a mechanism that will integrate the core competencies with the supervisor's use of the State of Arkansas Performance Goals Compensation System

Arkansas Department of Health Available Training Courses

Course	<u>Target</u> Audience	<u>Objectives</u>
Attitude Virus	Supervisors, All Employees	-Focusing on behavior, not personality -Acknowledge underlying causes for bad attitudes -Addressing stress-causing issues -Learning to replace negative reactions with new, adaptable
Cultural Awareness	All Employees	-Increase employee awareness of cultural similarities and differences
Customer Service	All Employees	-List, describe and utilize the basics of good customer service -Utilize effective communication skills and techniques -Identify personality strengths and how to use them effectively -Utilize good telephone etiquette practices and important customer service values -Identify customer service problems and develop solutions

Dealing With Difficult People	All Employees by request	-Describe the impact of Dealing with Difficult PeopleUnderstand how to get results with any personalityIdentify how to keep your balance when in a Difficult Situation.
Teamwork 1 – Insight Inventory	All employees, best for entire team to attend together, by request	-Identify four personality strengths -Flex personality strengths to better communicate with others -Develop a team wheel to assess the team's strengths and possible dangers
Teamwork 3 — Developing Trust	All Employees by request	-Define Trust -List benefits of trust -Measure your Trust level -List actions that build and reduce trust -Describe the four factors of self-trust and critical behavior factors -Describe the principles of behavior and how they affect trust
Time Management	All Employees	-Define time management -Analyze how participants spend their time -Identify time wasters and ways to eliminate them -List and describe time management techniques -Develop a personal time management plan for their work.

Arkansas Department of Health Curricula & Training Schedule 2020-2025

Introduction

This section describes the curricula and training schedule for the Arkansas Department of Health.

Topic	Description	Target Audience	Competencies Addressed	Schedule	Resources
ADH New Employee Orientation	Two-day course that covers policies/procedures and benefits on day one; day two includes cultural awareness, customer service and teamwork	All New Employees	11.1.2; 11.1.3	Available online	ADH Intranet page
ADH Supervision 101	Three-day course specifically designed for <i>new supervisors</i> that is Governor Mandated by Executive Orders 93 -1 and 86 -1. Topics include employee discipline, mediation and grievance, employee conduct, performance evaluations, recruitment and hiring, resignation and termination, and interpreting state and federal laws and agency recruitment and hiring, resignation and termination, and interpreting state and federal laws and agency recruitment and hiring, resignation and termination, and interpreting state and federal laws and agency policies. Also included in this course is Teamwork I.	All New Supervisors	8.2.2; 11.1.3; 9.2.5	Within the first 6 months of supervisory role	ADH Intranet page
ADH Supervisory Online Training	Must complete all six online modules that are required for Supervision 101	Seasoned supervisors and managers	Varies	Every 5 years	http://ar.train.org
ADH HIPAA Privacy and Security Training	Mandatory training on patient confidentiality	All Staff	Mandate	Annually	http://ar.train.org

Evaluation and Tracking

Introduction

The Arkansas Department of Health (ADH) makes use of the Train Learning Management System to both Evaluate and Track training conducted at ADH. Arkansas Department of Health is an approved provider of continuing nursing education by the Arkansas Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. All courses in which CNE Contact Hours are offered are required to be listed through Train. This section describes how evaluation and tracking of training is conducted at ADH.

Evaluation

Evaluation of training will provide the ADH with useful feedback regarding its efforts, including content, delivery, vendor preferences, and training effectiveness.

All Course providers who use TRAIN are encouraged to make use of the Evaluation function within TRAIN.

Accurate evaluation reporting is necessary, particularly for professional continuing education documentation and quality improvement purposes. Nurses who take courses in which CNE Contact Hours are offered are required to complete an Evaluation through Train prior to being awarded the Contact Hours. Nurses who do not complete the course within two weeks of the completion of the course may not be awarded the Contact Hours.

In addition to the Initial Evaluation a voluntary Follow up Evaluation is conducted through TRAIN. This Follow up Evaluation appears in the Learner's TRAIN account 90 days after the completion of the course and is made available for 60 days. The Follow up Evaluation looks to find out how the course impacted the learners nursing practice.

The TRAIN Administrator pulls the Evaluation results for both from TRAIN, creates an Evaluation Summary Report, and submits the report to the Course Nurse Planner for review. An electronic copy of the Evaluation Summary report is maintained by Workforce Development section of the ADH Human Resources Office.

Please see Appendix C for examples of Evaluation forms

Tracking

ADH encourages agency-wide use of TRAIN as a resource for tracking employee training. Located at https://ar.train.org, the system has the ability to create and maintain personal learning records, perform course searches, and provide the ability to register for courses online. It allows the Course Provider the tools to generate a course roster, surveys, evaluations, generate reports, certificates of completion and sign-in sheets. TRAIN is used to track all CNE Courses ADH offers as well as how many CNE Contact Hours have been awarded. In addition, Train also provides a Transcript for each user with a list of courses that the user has completed.

Core Competencies for ADH Public Health Professionals

Tier 1	Tier 2	Tier 3	
Analytic/Assessment Skills			
Identifies the health status of populations and their related determinants of health and illness	Assesses the health status of populations and their related determinants of health and illness	Reviews the health status of populations and their related determinants of health and illness conducted by the organization	
Describes the characteristics of a population-based problem	Describes the characteristics of a population-based health problem	Describes the characteristics of a population-based health problem	
Uses variables that measure public health conditions	Generates variables that measure public health conditions	Evaluates variables that measure public health conditions	
Uses methods and instruments for collecting valid and reliable quantitative and qualitative data	Uses methods and instruments for collecting valid and reliable quantitative and qualitative data	Critiques methods and instruments for collecting valid and reliable quantitative and qualitative data	
Identifies sources of public health data and information	References sources of public health data and information	Expands access to sources of public health data and information	
Recognizes the integrity and comparability of data	Examines the integrity and comparability of data	Evaluates the integrity and comparability of data	
Identifies gaps in data sources	Identifies gaps in data sources	Rectifies gaps in data sources	
Adheres to ethical principles in the collection, maintenance, use, and dissemination of data and information	Employs ethical principles in the collection, maintenance, use, and dissemination of data and information	Ensures the application of ethical principles in the collection, maintenance, use, and dissemination of data and information	
Describes the public health applications of quantitative and qualitative data	Interprets quantitative and qualitative data	Integrates the findings from quantitative and qualitative data	
Collects quantitative and qualitative community data	Makes community-specific inferences from quantitative and qualitative data	Determines community specific trends from quantitative and qualitative data	
Uses information technology to collect, store, and retrieve data	Uses information technology to collect, store, and retrieve data	Uses information technology to collect, store, and retrieve data	
Describes how data are used to address scientific, political, ethical, and social public	Uses data to address scientific, political, ethical, and social public	Incorporates data into the resolution to address scientific, political, ethical, and social public	
		Identifies the resources to meet community health	
Policy Development/Program Planning Skills			
Gathers information relevant to specific public health policy issues	Analyzes information relevant to specific public health policy issues	Evaluates information relevant to specific public health policy issues	

Participates in the development of demographic, statistical, programmatic and scientific	Presents demographic, statistical, programmatic and scientific presentations	Interprets demographic, statistical, programmatic and scientific presentations

environment on organizational	social, political, and economic	political, and economic environment
practices	environment	
		Ensures the management of
		organizational change

Appendix A: ADH Core Competencies

ADH NIMS and ICS Training Guidelines

The National Incident Management System (NIMS) is a comprehensive, national approach to incident management that is applicable at all jurisdictional levels and across functional disciplines. It is intended to: 1) be applicable across a full spectrum of potential incidents, hazards, and impacts, regardless of size, location or complexity; 2) improve coordination and cooperation between public and private entities in a variety of incident management activities; 3) provide a common standard for overall incident management.

The Incident Command System (ICS) provides a flexible, yet standardized core mechanism for coordinated and collaborative incident management. ICS is needed when an incident requires response from multiple local emergency management and response agencies, effective cross-jurisdictional coordination using common processes and systems is critical.

NIMS and ICS Training is required for all emergency services-related disciplines, public health disciplines and all ADH employees including: Entry Level staff, First Line Supervisors, Middle Management, and those designated as Command and General Staff. Required courses are as follows: IS-700 NIMS, An Introduction (1016070) and IS-100 Introduction to ICS (1016067)

Appendix B: TRAIN

TRAIN- The Premier Online Training Resource for Professionals Who Protect the Public's Health

(TRAIN – ARKANSAS TRAIN)

The Training Finder Real-time Affiliate Integrated Network, or TRAIN, is the nation's premier learning resource for professionals who protect the public's health. TRAIN is comprised of the national www.train.org site and participating TRAIN affiliate sites. Affiliate sites are managed by many state public health agencies, academic partners, and others. As TRAIN grows, it serves a larger portion of the U.S. public health workforce.

Because all TRAIN sites are connected, TRAIN users can access information about state, local, national, or international training available to them through any participating TRAIN site.

Learners can use TRAIN to:

- Search or browse the nationwide database for on-site or distance learning courses
- Sign up for e-mails about new courses
- Create a personal learning record of competency-based training
- Provide and view feedback about courses listed on the site
- Register online for many courses
- Earn CEUs (often at no cost)

Course Providers can use TRAIN to:

- Efficiently publicize courses to thousands of TRAIN users through multiple web sites enter course information once (not dozens of times) and it is automatically visible to all participating TRAIN sites
- Manage online registration and student rosters
- Collect feedback from learners online
- Post course materials and discussion topics

TRAIN is a project of the Public Health Foundation with a grant from The Robert Wood Johnson Foundation and funding from participating states and the Centers for Disease Control and Prevention

Appendix C: Example Evaluation Form

ADH HIPAA Privacy and Security Training Course Evaluation 1009552

- 1. Information was easy to understand Rating (*Likert Scale 1-5)
- 2. Please provide any additional comments you may have to improve this course. (short answer)
- 3. The exercises contributed to my learning. (*Likert Scale 1-5)
- 4. The information presented is useful to my work. (*Likert Scale 1-5)
- 5. The instructor(s) were knowledgeable and well prepared. (*Likert Scale 1-5)
- 6. The length of the course was (multiple choice)
- 7. The right amount of time was allotted for this topic. (*Likert Scale 1-5)
- 8. What did you like most about the course? (short answer)
- 9. What topics would you like to see added? (short answer)
- 10. What would you like to see changed? (short answer)
- 11. Would you recommend this training to others? (short answer)

^{*}Likert Scale (1 = Strongly Disagree, 5 = Strongly Agree)
