## 1 Document Overview

This document serves as a training guide and support manual for dispensers of Schedule II through Schedule V controlled substances in Arkansas who use Bamboo Health's PMP Clearinghouse repository to report their dispensations. It includes such topics as:

- Reporting requirements for dispensers in the State of Arkansas
- Data file submission guidelines and methods
- Creating a PMP Clearinghouse account
- Creating a data file
- Uploading or reporting data
- Understanding and correcting errors

This guide is intended for use by all dispensers in the State of Arkansas required to report the dispensing of controlled substances.

# 2 Data Collection and Tracking

### 2.1 Data Collection Overview

The Arkansas Prescription Drug Monitoring Program (AR PDMP) was established to collect data on all Schedules II, III, IV, and V controlled substances dispensed to an individual in the State of Arkansas. This includes the state-controlled Schedule IV substance, nalbuphine, and Schedule V solid dosage forms of ephedrine, pseudoephedrine, and phenylpropanolamine.

Each time a controlled substance, federal or state, is dispensed to an individual, the controlled substance shall be reported to the AR PDMP, using a format approved by the Arkansas Department of Health (ADH), no later than the next business day after the date of dispensing. All dispensers of controlled substances must meet the reporting requirements set forth by Arkansas law in a secure methodology and format.

**Note**: A "dispenser" is identified as a practitioner who is authorized by the state to deliver a controlled substance to an ultimate user or research subject by or pursuant to the lawful order of a practitioner, including without limitation, the prescribing, administering, packaging, labeling, or compounding necessary to prepare the controlled substance for that delivery.

All dispensers of controlled substances must meet the reporting requirements set forth by state law in a secure methodology and format. Information about controlled substance dispensing activities must be reported on regular intervals to the AR PDMP through the authorized data collection vendor, Bamboo Health, Inc.

### 2.2 Reporting Requirements

As of November 13, 2017, the AR PDMP pharmacies and dispensers are required to report controlled substance dispensations to the AR PDMP via PMP Clearinghouse. Dispensations must be reported each time a controlled substance is dispensed to an individual, no later than the next business day after the date of dispensing.

Note: If you are veterinarian who is required to report to the AR PDMP, dispensations must be reported not more than 30 days after the controlled substance was dispensed. Please refer to <u>Dispensing for Veterinarians</u> for more information.

The laws and regulations for reporting to the AR PDMP are continuously subjected to amendments, it is the responsibility of dispensers to be aware of such updates as they are enacted and promulgated.

All dispensers of federally or state defined Schedules II, III, IV, and V controlled substance prescriptions are required to collect and report their dispensing information. Such reporting without individual authorization by the patient is allowed under HIPAA, 45CFR § 164.512, paragraphs (a) and (d). The Arkansas Department of Health (ADH) is the state oversight agency and Bamboo Health acts as an agent of the AR PMP in the collection of this information.

The elements marked "R" and "RR" in the table in Appendix A are required by law to be reported. For details on these elements and ASAP 4.2, please see <u>Appendix A: ASAP 4.2 Specifications</u>.

The <u>Data Submission</u> chapter provides all the instructions necessary to submit the required information.

**Note**: If you are a chain pharmacy, your data will likely be submitted from your home office. Please verify this with your home office. If you are an independent pharmacy or other entity, please forward the reporting requirements to your software vendor. They will need to create the data file, and they may be able to submit the data on your behalf. If not, follow the instructions provided in the <u>Data Submission</u> chapter to submit the data.

### 2.2.1 HIPAA Compliance

Disclosure of prescription drug monitoring information must comply with the federal Health Insurance Portability and Accountability Act of 1996 (P.L. 104-191) and regulations adopted under it, including 45 C.F.R. parts 160 and 164; federal alcohol and drug treatment confidentiality laws and regulations adopted under those laws, including 42 C.F.R. part 2; and state health information confidentiality laws.

### 2.2.2 Zero Reports

If a dispenser usually dispenses controlled substances in Arkansas but has no dispenses to report for the preceding reporting period, the pharmacy must report this information to the AR PDMP by filing a zero report as described in the <u>Reporting Zero Dispensing</u> topic in this guide.

### 2.2.3 Reporting Noncompliance

Any dispenser who knowingly fails to submit prescription-drug monitoring information as required by Arkansas law, intentionally submits incorrect prescription information, or discloses confidential information obtained from the PDMP database may be subject to criminal charges or may be disciplined by the dispenser's licensing board.

### 2.2.4 Exemptions

The following entities are exempt from reporting data:

- A licensed hospital pharmacy that is dispensing controlled substances for the purpose of outpatient services, inpatient hospital care, or at the time of discharge from a hospital, except for a pharmacy owned by a hospital that has a retail pharmacy permit and is distributing controlled substances directly to the public.
- A wholesale distributor of Schedule II–Schedule V controlled substances.
- A practitioner or other authorized person who administers a controlled substance.

### 2.2.5 Dispensing for Veterinarians

All veterinarian dispensers of Schedules II, III, IV, and V controlled substance prescriptions are required to collect and report their dispensing information. Each time a controlled substance is dispensed to an individual, the controlled substance shall be reported using a format approved by the ADH **not more than 30 days after the controlled substance was dispensed**. All dispensers of controlled substances must meet the reporting requirements set forth by Arkansas law in a secure methodology and format.

Veterinarians who do not dispense Schedule II-V medications are not required to report to the Arkansas PDMP. Please note that <u>prescribing</u> (writing out a prescription to be filled by a pharmacy) and <u>administration</u> of medication in a clinic setting are not considered dispensing and, therefore, are not reported.

# 3 Accessing Clearinghouse

This chapter describes how to create your PMP Clearinghouse account and how to log in to the PMP Clearinghouse web portal.

### 3.1 Creating Your Account

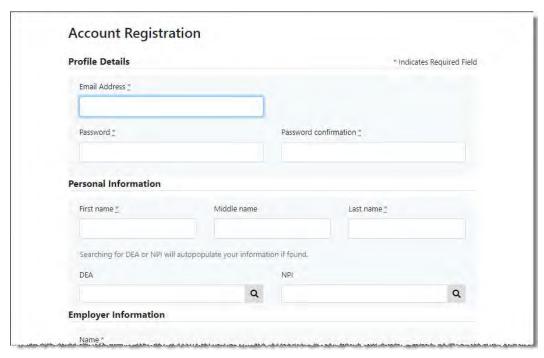

Prior to submitting data, you must create an account. If you are currently registered with the Bamboo Health PMP Clearinghouse system, you *do not* need to register for a new account—you will be able to add Arkansas to your existing account for data submissions. If you have an existing PMP Clearinghouse account, please refer to <a href="Adding PMPs to Your Upload Account">Adding PMPs to Your Upload Account</a> to add PMPs to your account.

#### Notes:

- Data from multiple pharmacies can be uploaded in the same file. For example, chain pharmacies may send in one file containing controlled substance dispensing information for all their pharmacies licensed in the PMP. Therefore, chains with multiple stores need only to set up one account to upload a file.
- PMP Clearinghouse allows users to submit data through the web portal via manual entry (UCF) or upload of ASAP files. For users who prefer an encrypted transfer method, SFTP access is also available. You may set up your SFTP account during the account creation process.
- If you need to make changes to an existing PMP Clearinghouse upload account, please refer to <u>Managing Your Upload Account</u>.

Perform the following steps to create an account:

 Open an internet browser window and navigate to the PMP Clearinghouse Account Registration page located at <a href="https://pmpclearinghouse.net/registrations/new">https://pmpclearinghouse.net/registrations/new</a>.

2. Complete your Profile Details.

a. Enter your current, valid email address in the **Email Address** field.

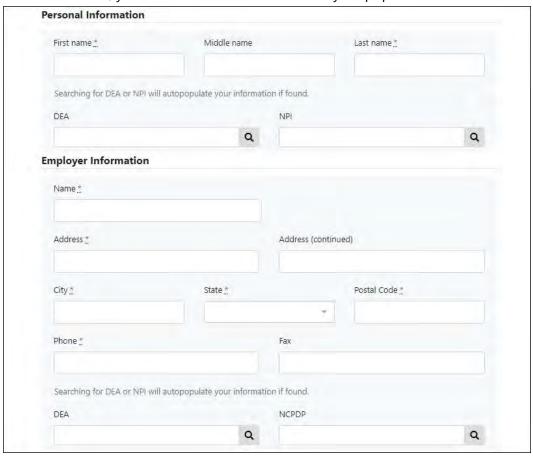

**Note:** The email address you provide here will act as your username when logging into the PMP Clearinghouse system.

b. Enter a password for your account in the **Password** field, then re-enter it in the **Password Confirmation** field. The password requirements are provided below.

#### Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.
- 3. Complete your Personal and Employer information, noting the following:
  - Required fields are marked with a red asterisk (\*).

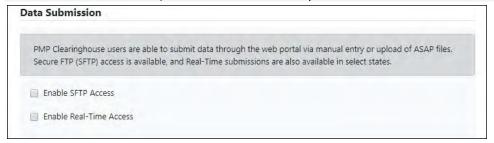

You may be able to auto-populate your Personal and/or Employer information by entering your (or your employer's) DEA, NPI, and/or NCPDP number, then clicking the search icon (Q). If the number you entered is found, your information will automatically be populated.

4. If secure file transfer protocol (SFTP) is required, complete the Data Submission section of the page.

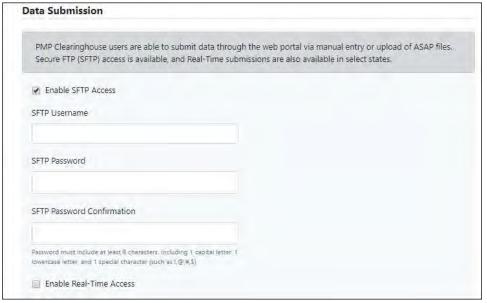

#### Notes:

- If SFTP access is not required, you do not need to complete the Data Submission section and you may continue to step 5.
- You may add SFTP access to an existing account. Please refer to <u>Adding</u> <u>SFTP Access to an Upload Account</u> for complete instructions.

a. Click to select the Enable SFTP Access checkbox.

The SFTP access fields are displayed.

- b. Your **SFTP Username** is automatically generated using the first five characters of your employer's name + your employer's phone number + @prodpmpsftp. For example, if you entered "Test" as your employer's name and "555-555-5555" as your employer's phone number, your SFTP username would be *test55555555559prodpmpsftp*.
- c. Enter a password for your SFTP account in the SFTP Password field, then re-enter it in the SFTP Password Confirmation field. The password requirements are provided below.

#### Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

This password will be input into the pharmacy software so that submissions can be automated.

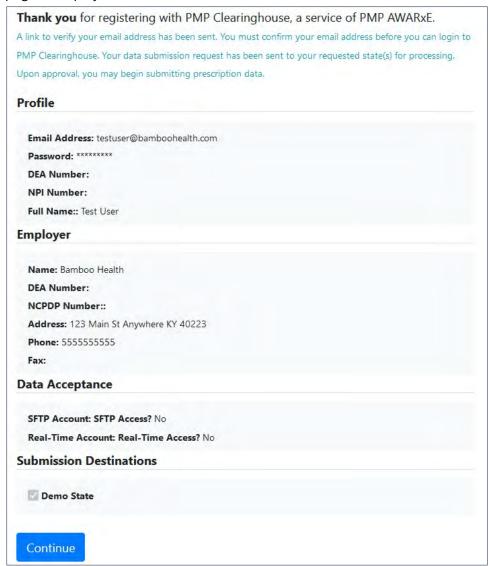

#### Notes:

- This password can be the same as the one previously entered under Profile.
- Unlike the Profile password (i.e., your user account password), the SFTP password does not expire.
- The URL to connect via SFTP is sftp://sftp.pmpclearinghouse.net.
- Additional details on SFTP configuration can be found in <u>Appendix C:</u> <u>SFTP Configuration</u>.

5. In the Submission Destinations section of the page, select the PMP(s) for which you will be submitting data.

#### 6. Click Submit.

The request is submitted to the AR PDMP Administrator for each of the PMPs you selected for data submission, and the Registration Information Overview page is displayed.

#### 7. Click Continue.

The PMP Clearinghouse Login page is displayed; however, you will not be able to log in until your account has been approved. Once the PMP administrator has approved your request, you will receive a welcome email instructing you to confirm your account. Follow the instructions in the email to confirm your account and begin submitting data to PMP AWARXE.

### 3.2 Logging In to PMP Clearinghouse

1. Open an internet browser window and navigate to the PMP Clearinghouse Login page located at <a href="https://pmpclearinghouse.net/users/sign\_in">https://pmpclearinghouse.net/users/sign\_in</a>.

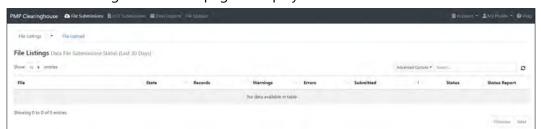

- 2. Enter the email address you used to create your account in the **Email Address** field.
- 3. Enter your password in the **Password** field.

**Note:** If you have forgotten your password, have completed your registration but did not receive the account confirmation email, or your account has been locked and you did not receive the email with instructions for unlocking your account, please refer to the links in the Help section of the page. For detailed instructions on resetting your password, refer to <u>Resetting Your Password</u>.

4. Click Login.

The PMP Clearinghouse home page is displayed.

### 4 Data Submission

This chapter provides information and instructions for submitting data to the PMP Clearinghouse repository.

### 4.1 Timeline and Requirements

- Pharmacies and software vendors can create their PMP Clearinghouse accounts upon receipt of this guide. See <u>Creating Your Account</u> for more information.
- You can begin submitting data to PMP Clearinghouse as soon as your account has been created. As of November 13, 2017, dispensers are required to transmit their data using PMP Clearinghouse in accordance with the guidelines outlined under <u>Reporting Requirements</u>.
- If a pharmacy does not dispense any controlled substances for the preceding reporting period, it must file a zero report for that reporting period, or it will be considered noncompliant. See <u>Zero Reports</u> for additional details.
- Reporting waiver requests may be sent to <u>jazalyn.vera-bowen@arkansas.gov</u>

**Note:** If you have any questions about the reporting timeline, please contact the AR PDMP Administrator using the information provided in <u>Administrative</u> Assistance.

### 4.2 Upload Specifications

Files should be in the ASAP 4.2 format as defined in <u>Appendix A: ASAP 4.2</u> <u>Specifications</u>. Files for upload should be named in a unique fashion, with a prefix constructed from the date (YYYYMMDD) and a suffix of ".dat". An example file name would be "20220219.dat". All of your upload files will be kept separate from the files of others.

Reports for multiple dispensers/pharmacies can be in the same upload file in any order.

# 5 Data Delivery Methods

This chapter provides information about data delivery methods you can use to upload your controlled substance reporting data file(s) to PMP Clearinghouse.

For quick reference, you may click the desired hyperlink in the following table to view the step-by-step instructions for your chosen data delivery method:

Delivery Method	Page
Secure FTP	12
Web Portal Upload	13
Manual Entry (UCF)	15
Zero Reports	19

### 5.1 Secure FTP

If you are submitting data to PMP Clearinghouse using SFTP, you must configure individual subfolders for the PMP systems to which you are submitting data. These subfolders must be created in the *homedir/directory* folder, which is where you are directed once authenticated, and **should be named using the PMP abbreviation (e.g., AR, DC, KS, GA, GU, PR, etc.).** Data files not submitted to a PMP sub-folder will be required to have a manual PMP assignment made on the <u>File Listings</u> page. Please refer to <u>PMP Subfolders</u> for additional details on this process.

1. If you do not have a PMP Clearinghouse account, perform the steps in <a href="Creating Your Account">Creating Your Account</a>.

 $\bigcirc$ r

- 2. If you have a PMP Clearinghouse account but have not enabled SFTP access, perform the steps in <u>Adding SFTP Access to an Upload Account</u>.
- 3. Prepare the data file(s) for submission, using the ASAP specifications described in <u>Appendix A: ASAP 4.2 Specifications</u>.

#### Notes:

- Files for upload should be named in a unique fashion, with a prefix constructed from the date of submission to PMP Clearinghouse (YYYYMMDD) and a suffix of ".dat". An example file name would be "20220919.dat".
- All of your upload files will be kept separate from the files of others.
- Reports for multiple pharmacies can be in the same upload file in any order.
- If you submit more than one file within the same day, you must uniquely name each file, so the system does not overwrite existing uploaded files.

For example, if uploading three files within the same day, you could use the following file names: 20220919a.dat, 20220919b.dat, and 20220919c.dat.

- 4. SFTP the file to <a href="style="color: blue;">sftp://sftp.pmpclearinghouse.net</a>.
- 5. When prompted, enter the username and password you created when setting up the SFTP account.
- 6. Place the file in the appropriate PMP-abbreviated directory.
- 7. You can view the results of the transfer/upload on the Submissions page in PMP Clearinghouse.

**Note:** If you place the data file in the root directory and not a PDMP sub-folder, a symbol with a mouse over hint of "Determine PMP" is displayed on the File Status page, and you will be prompted to select a destination PMP to which the data should be sent.

### 5.2 Web Portal Upload

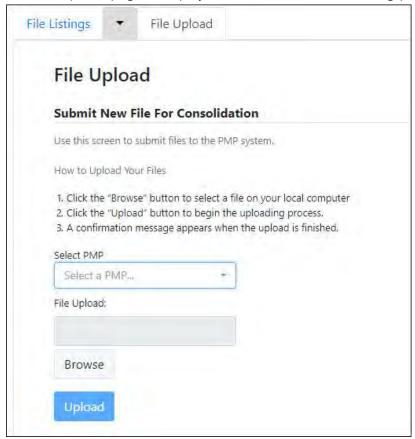

- 1. If you do not have an account, perform the steps in Creating Your Account.
- 2. Prepare the data file(s) for submission, using the ASAP specifications described in <u>Appendix A: ASAP 4.2 Specifications</u>.

#### Notes:

- Files for upload should be named in a unique fashion, with a prefix constructed from the date of submission to PMP Clearinghouse (YYYYMMDD) and a suffix of ".dat". An example file name would be "20220919.dat".
- All of your upload files will be kept separate from the files of others.
- Reports for multiple pharmacies can be in the same upload file in any order.
- If you submit more than one file within the same day, you must uniquely name each file, so the system does not overwrite existing uploaded files. For example, if uploading three files within the same day, you could use the following file names: 20220919a.dat, 20220919b.dat, and 20220919c.dat.
- 3. Log in to PMP Clearinghouse.
- 4. From the home page, click the **File Upload** tab.

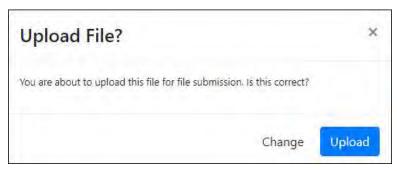

The File Upload page is displayed as shown on the following page.

- 5. Select the PMP to which you are submitting the file from the drop-down list in the **Select a PMP** field.
- 6. Click the **Browse** button, located next to the **File Upload** field, and select the file you created in step 2.
- 7. Click Upload.

A message is displayed prompting you to confirm the submission.

8. Click **Upload** to continue with the file submission.

Your file is uploaded, and you can view the results of the upload on the File Submissions page.

**Note:** When uploading a file, the file name must be unique. If the file name is not unique, a message is displayed indicating that the file name has already been taken.

### 5.3 Manual Entry (UCF)

If you do not have an automated record-keeping system capable of producing an electronic report using the ASAP 4.2 format, prescription information may be submitted on the Universal Claim Form (UCF).

The UCF may be submitted in two ways: online or via paper submission. For more information, see the following topics:

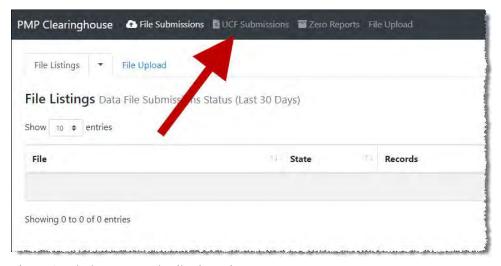

- Online UCF Submission
- Paper UCF Submission

#### 5.3.1 Online UCF Submission

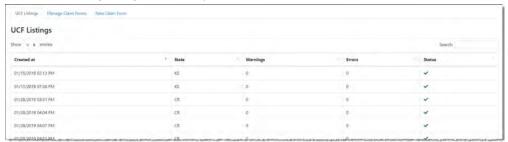

You can manually enter your prescription information into the PMP Clearinghouse system using the Universal Claim Form (UCF) within the PMP Clearinghouse web portal. This form allows you to enter patient, prescriber, dispenser, and prescription information.

Please refer to <u>Reporting Requirements</u> for the complete list of reporting requirements.

- 1. If you do not have an account, perform the steps in <u>Creating Your Account</u>.
- 2. Log in to PMP Clearinghouse.
- 3. Click UCF Submissions.

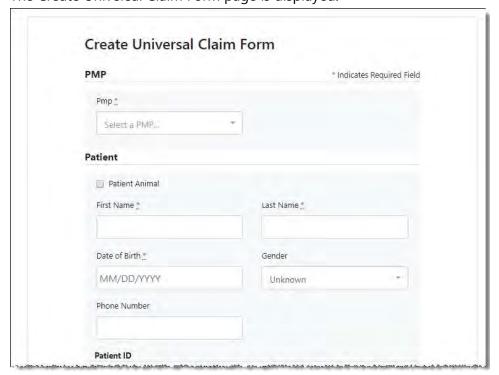

The UCF Listings page is displayed.

4. Click the New Claim Form tab, located at the top of the page.

The Create Universal Claim Form page is displayed.

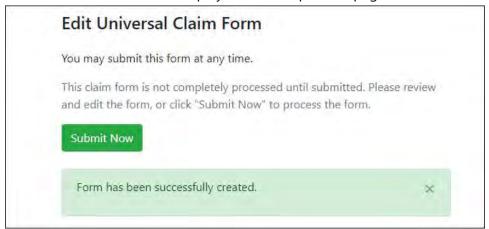

- 5. Select the PMP to which you are submitting data from the drop-down list in the **Select a PMP** field.
- 6. Complete the required fields.

#### Notes:

- An asterisk (\*) indicates a required field.
- If you are entering a compound, click the Compound checkbox in the Drug Information section of the page, complete the required fields for the first drug ingredient, then click Add New to add additional drug ingredients.
- 7. Once you have completed all required fields, click **Save**.

The **Submit Now** button is displayed at the top of the page.

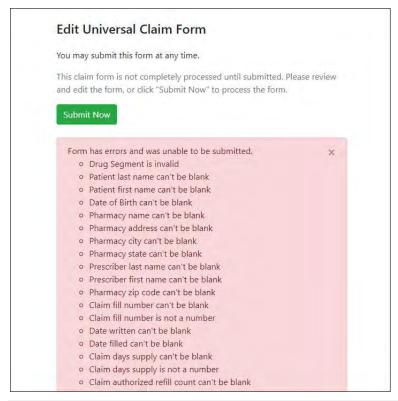

8. Click **Submit Now** to continue with the data submission process.

A message is displayed prompting you to confirm the data submission.

9. Click OK.

Your data will be validated upon submission. If there are any errors on the UCF form, they are displayed at the top of the page.

**Note:** If there are no errors, you are returned to the Submitted Claim Forms page and your report is listed there.

10. Correct the indicated errors, then repeat steps 7–9.

Once your data has been successfully submitted, your report is listed on the UCF Listings page.

### 5.3.2 Paper UCF Submission

If you do not have an automated record keeping system capable of producing an electronic report following the provided ASAP 4.2 format, and you have been approved by the AR PDMP, you may submit prescription information via paper UCF.

Completed UCFs may be faxed to 1-501-369-6794.

**Note**: The UCF is provided in <u>Appendix D</u> of this document.

### 5.4 Zero Reports

If you have no dispensations to report for the preceding reporting period, you must report this information to the AR PDMP.

You may submit your zero report through the PMP Clearinghouse web portal by following the steps below or via SFTP using the ASAP Standard for Zero Reports. For additional details on submitting via SFTP, please refer to <a href="Appendix B: ASAP">Appendix B: ASAP</a> Zero Report Specifications.

You may submit zero reports through the PMP Clearinghouse web portal using one of the following methods:

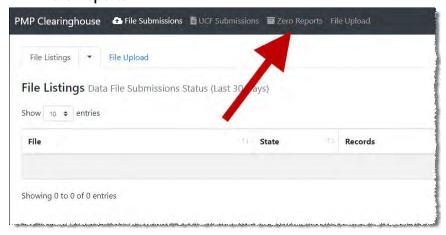

- Submit a single-click zero report
- Create a new zero report

### 5.4.1 Submit a Single-Click Zero Report

Single-click zero reporting allows you to create a profile for the pharmacy that includes its identifiers (e.g., DEA, NPI, NCPDP), so you do not have to enter it each time you submit a zero report.

To create a pharmacy profile and begin submitting single-click zero reports:

- 1. If you do not have an account, perform the steps in <u>Creating Your</u> Account.
- 2. Log in to PMP Clearinghouse.
- 3. Click Zero Reports.

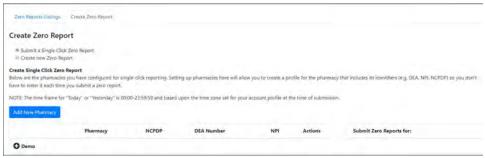

The Zero Report Listings page is displayed.

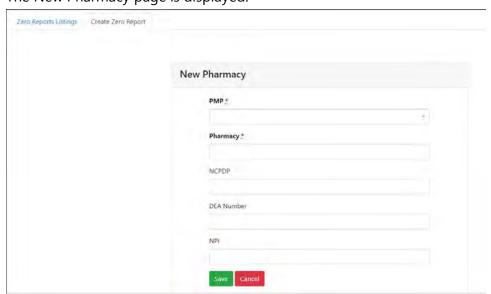

4. Click the Create Zero Report tab.

The Create Zero Report page is displayed. *Note that Submit a Single Click Zero Report is selected by default.* 

- Any pharmacies you have already configured for single-click zero reporting are displayed at the bottom of the page. Continue to step 10 to submit a zero report for those pharmacies.
- If you have not configured your pharmacy for single-click zero reporting, continue to step 5.
- 5. Click Add New Pharmacy.

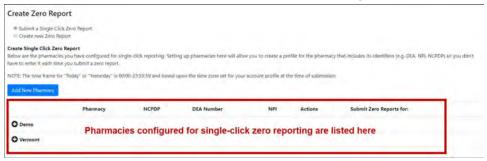

The New Pharmacy page is displayed.

6. Select the PMP for which you are submitting a zero report from the drop-down list in the **PMP** field.

- 7. Enter the pharmacy's name in the **Pharmacy** field.
- 8. Populate the **NCPDP**, **DEA Number**, and/or **NPI** fields as required by the PMP you selected in step 6. If any of these fields are required, a red asterisk (\*) will be displayed next to that field once you have selected a PMP.
- 9. Click Save.

The pharmacy is saved and will be listed under the drop-down for the selected PMP, which is located at the bottom of the page.

10. Click the plus sign ("+") next to the PMP for which you wish to submit a zero report.

The list of pharmacies you have configured for single-click zero reporting for that PMP is displayed. *Note that this page allows you to submit a zero report for the current date (Today) or the previous day (Yesterday).* 

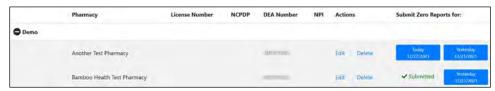

Click **Today** to submit a zero report for the current date;

Or

12. Click Yesterday to submit a zero report for the previous date.

Once the report is submitted, the submission is indicated on the screen, and the zero report is displayed on the **Zero Report Listings** tab.

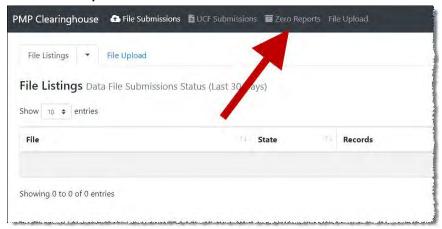

Note: You may edit or delete a pharmacy from this page.

- To edit a pharmacy, click Edit to display the Edit Pharmacy page and make any necessary changes. Refer to steps 6–9 for guidance on entering pharmacy information.
- To delete a pharmacy, click **Delete**. You will be prompted to confirm the deletion. Once you confirm the deletion, the pharmacy configuration will be removed.

### 5.4.2 Create a New Zero Report

- 1. If you do not have an account, perform the steps in <u>Creating Your</u> Account.
- 2. Log in to PMP Clearinghouse.
- 3. Click Zero Reports.

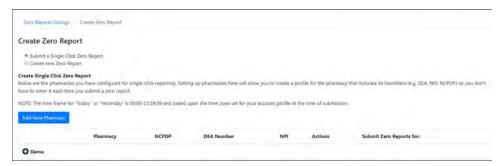

The Zero Report Listings page is displayed.

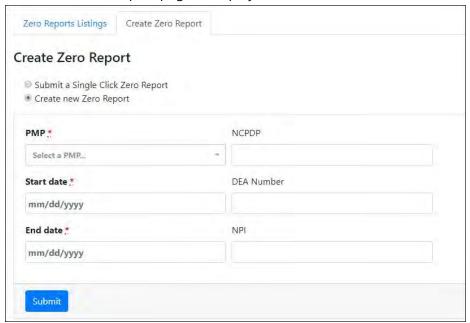

4. Click the Create Zero Report tab.

The Create Zero Report page is displayed. *Note that Submit a Single Click Zero Report is selected by default.* 

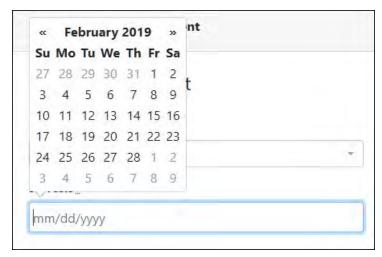

5. Click the button to select **Create new Zero Report**.

The Create Zero Report page is displayed.

- 6. Select the PMP for which you are submitting a zero report from the drop-down list in the **PMP** field.
- 7. Enter the start date and end date for the zero report in the **Start date** and **End date** fields using the *MM/DD/YYYY* format. You may also select the dates from the calendar that is displayed when you click in these fields.

8. Enter your NCPDP, DEA, and/or NPI numbers, if required by your PMP.

**Note:** If any of these fields are required by your PMP, they will be marked with a red asterisk (\*).

9. Click **Submit**.

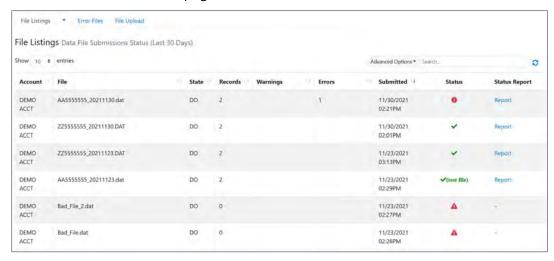

Your zero report is submitted to PMP Clearinghouse and will be displayed on the **Zero Report Listings** tab.

# 6 Data Compliance

This chapter describes how to view the status of your submitted data files and how to correct errors.

### 6.1 File Listings

The File Listings page displays information extracted from the data files submitted to PMP Clearinghouse, including the file name, number of records identified within the data file, number of records that contain warnings, number of records that contain errors, and the date and time of submission. Click **File Submissions** to access this page.

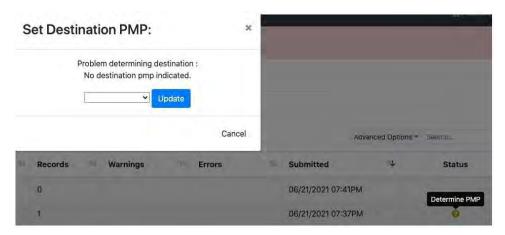

- The **Status** column, located at the end of each row, displays the file status via color-coded icon. Hovering over the icon will display the status message.
- The Status Report column, located next to the Status column, contains a link to the status report for that file. Please refer to <u>File Status Report</u> for more information on how to read and interpret this report.

If a file contains errors, it will have a symbol with a mouse over hint of "Pending Dispensation Error" within the status column. You can click the error icon in the Status column to display the Error Correction page, which allows you to view the records containing errors (see <u>View Records</u> for more information). Please refer to <u>Error Correction</u> for instructions on how to correct errors.

If a file is unable to be parsed into the PMP Clearinghouse application, it will have an A symbol with a mouse over hint of "ASAP Errors." Clicking the icon will display the detailed error, which indicates what element was missing or malformed. To correct these errors, a new file must be submitted to PMP Clearinghouse. It is not necessary to void a file that failed parsing since it was not successfully submitted to PMP Clearinghouse.

If you submitted a file via SFTP without using a PMP-specific sub-folder, the file will be displayed, and symbol will be displayed in the status column with a mouse over hint of "Determine PMP." Clicking the icon will prompt you to select a destination PMP to which the data file will be transferred.

If you submitted a zero report via file upload or SFTP that is malformed or missing information, the file will be displayed, and an exclamation mark icon inside a red triangle will be displayed in the status column. Hovering over the icon will display the "Invalid Zero Report" error. Clicking on the icon will display the detailed error message. To correct these errors, a new zero report must be submitted. Error example:

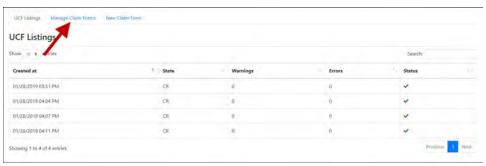

### 6.2 UCF Listings

The UCF Listings page displays information about the UCFs submitted to PMP Clearinghouse, including the number of warnings and errors. Click **UCF Submissions** to access this page.

The **Status** column, located at the end of each row, displays the UCF's status. Data entered into the UCF is validated upon submission; therefore, successfully submitted UCFs should not contain errors. However, if you have attempted to submit a UCF with errors and did not immediately correct those errors and submit the record, you have 30 days to make updates to these records in Clearinghouse.

1. To view pending or incomplete submissions, click the **Manage Claim Forms** tab.

The Pending Claim Forms page is displayed.

2. Click **Edit** next to the form you wish to update.

**Note:** If it has been longer than 30 days, the **Edit** option will not be available. You must click **Delete** to delete the record and start over.

Edit Universal Claim Form

You may submit this form at any time.

This claim form is not completely processed until submitted. Please review and edit the form, or click "Submit Now" to process the form.

Submit Now

PMP

\* Indicates Required Field

Pmp \*

Alaska

Patient

Patient Animal

The Edit Universal Claim Form page is displayed.

3. Make the necessary corrections or changes, and then click **Submit Now**, located at the top of the page.

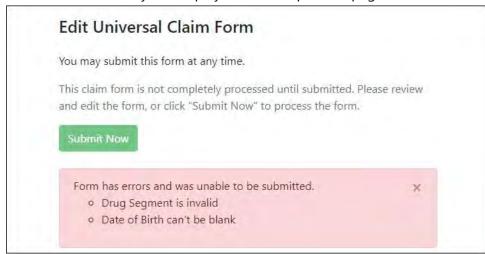

A message is displayed prompting you to confirm the data submission.

First Name \*

#### 4. Click OK.

Your data will be validated upon submission. If there are any remaining errors on the UCF form, they are displayed at the top of the page.

**Note:** If there are no errors, you are returned to the UCF Listings page and your report is listed there.

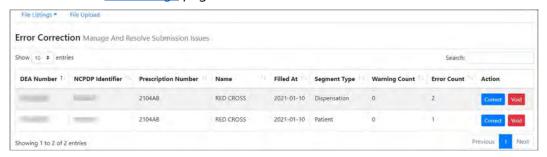

5. Correct the indicated errors, then repeat steps 3-4.

Once your data has been successfully submitted, your report is listed on the UCF Listings page.

### 6.3 Error Correction Page

#### 6.3.1 View Records with Errors

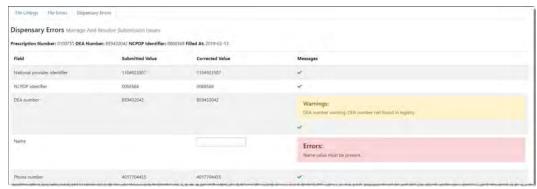

The Error Correction page displays more information about the records within a selected data file that need correcting, including **Prescription Number**, **Segment Type**, **Warning Count**, and **Error Count**. To access this page, click the "**Pending Dispensation Error**" message in the **Status** column of the File Listings page.

The **Correct** button, located at the end of each row, allows you to make corrections to the record.

### 6.3.2 Error Correction via PMP Clearinghouse

Once you click **Correct** on the Error Correction page, the Errors page is displayed. This page displays detailed information about the records within a selected data file that need correcting, including all the fields contained within the record and the originally submitted value, and allows you to correct those records.

- The **Corrected Value** column allows you to enter a new value to correct the error.
- The **Message** column displays the relevant error message explaining why the value entered in that field did not pass the validation rules.

For files that failed to parse, the error identified is "best effort" and any information we could not parse is listed as "unparseable" in the file. In this case, you must submit a corrected file.

#### To correct records:

- 1. Identify the fields that require corrections. Fields containing errors are highlighted in red, as shown in the screenshot above.
- 2. Enter the corrected value in the Corrected Value column.
- 3. Click Submit.

The error is processed through the validation rules.

- a. If the changes pass the validation rules, the record is valid, and a message is displayed indicating that the errors have been corrected. The <u>File Listings</u> and <u>Error Correction</u> pages are also updated.
- b. If the changes fail the validation rules, a message is displayed indicating that there was a problem correcting the errors, and the Message column is updated with any new error message. Repeat steps 2–3 until the errors have been corrected and the file can be successfully submitted.

#### 6.3.3 Error Correction via File Submission

The ASAP 4.2 standard requires a pharmacy to select an indicator in the **DSP01** (Reporting Status) field. These indicators allow you to submit new records, revise and resubmit records, and void (delete) erroneous records. These actions are indicated by supplying one of the following values in the **DSP01** field:

- 00 New Record indicates a new record
- 01 Revise indicates that one or more data elements in a previouslysubmitted record have been revised
- 02 Void indicates that the original record should be removed

#### To revise a record:

- 1. Create a record with the value 01 in the **DSP01** field.
- 2. Populate the following fields with the same information originally submitted in the erroneous record:
  - Dispensary identifier (e.g., DEA number)
  - Prescription number (DSP02)
  - Date filled (DSP05)
  - Refill number (DSP06)
  - Quantity (DSP09)

**Note:** If you need to revise any of the fields listed above, you must delete the original record and submit a new one with the correct information. Otherwise, a duplicate record will be created.

- 3. Fill in all other data fields with the correct information. This information will override the original data linked to the fields referenced in step 2.
- 4. Submit the record.

# 7 Email Reports

Email status reports are automatically sent to all users associated with a specific data submitter account. These reports are used to identify errors in files that have been submitted and to confirm zero report submissions. This chapter describes the status reports you may receive via email.

### 7.1 File Failed Report

You will receive the *File Failed Report* if a submitted file was not able to be parsed and was not processed into PMP Clearinghouse. The report contains a description of the error encountered within the file. In the event of a failed file, a new file should be submitted with the necessary corrections.

**Note:** Failed files are not parsed into Clearinghouse and do not require a voided ASAP file to remove it from the system.

An example File Failed Report is provided below.

SUBJ: Arkansas ASAP file: fake-test3.txt - Parse Failure

BODY:

Error Message

-----

Failed to decode the value '04' for the bean id 'transactionControlType'.

#### Summary:

- \* File Name: fake-test3.txt
- \* ASAP Version: 4.2
- \* Transaction Control Number: unparseable
- \* Transaction Control Type: unparseable
- \* Date of Submission: September 19, 2022

NOTE: This file could not be received into the system because the system could not recognize its content as a valid ASAP format. Action is required to resolve the issues and a subsequent file should be submitted. As such the information provided in this report is "best effort" and any information we could not parse is listed as "unparseable" in the fields above.

### 7.2 File Status Report

The *File Status Report* serves as notification that a data file is currently being parsed by the PDMP system.

This report identifies specific records in the submitted data file and returns identifying information about the record, including specific errors identified during the validation process. It uses fixed-width columns and contains a summary section after the error listings. Each column contains a blank two-digit pad at the end of the data.

The columns are set to the following lengths:

Column	Length
DEA	11 (9 + pad)
NCPDP	9 (7 + pad)
NPI	12 (10 + pad)
Prescription	27 (25 + pad)
Filled	10 (8 + pad)
Segment	18 (16 + pad)
Field	18 (16 + pad)
Туре	9 (7 + pad)
Message	Arbitrary

The File Status Report notifies you of the following scenarios:

- **Total records**: The total number of records contained in the submitted data file.
- **Duplicate records**: The number of records that were identified as already existing within the PMP system. Duplicate records are not imported to prevent improper patient information.
- Records in process: The number of records remaining to be processed into the system (usually only displays a number if the file has not finished loading at the time the report is sent out).

**Note:** Records remaining to be processed will continue to be processed even after the status report is sent.

- Records with errors: The number of records that contain errors. These errors
  must be corrected for the record to be imported into the system. If a zero (0)
  is displayed, there are no errors in the data. Please refer to <a href="Error Correction">Error Correction</a>
  for instructions on correcting errors.
- **Records with warnings**: The number of records that contain warnings. These warnings do not need to be corrected for the record to be imported into the system. If a zero (0) is displayed, there are no warnings in the data.
- Records imported with warnings: The number of records with warnings that
  were imported. If a record contains both warnings and errors, the errors must
  be corrected to be submitted to the system. Please refer to <a href="Error Correction">Error Correction</a>
  for instructions on correcting errors.

• **Records imported without warnings**: The number of records without warnings that were imported.

**Note:** The initial File Status Report is sent out two (2) hours after the file has been submitted to the system. Additional reports will be sent out every 24 hours if errors continue to be identified within a submitted data file.

An example *File Status Report* is provided on the following page.

SUBJ: Arkansas ASAP file: fake-test3.txt - Status Report							
BODY: DEA	NCPDP	NPI	Prescription	Filled	Segment	Field Type	Message
			123486379596-0 357199504833-345		Dispensation Dispensation	refill_number days_supply	WARNING message example ERROR message example
Summary: * File Name	· faka-tast	3 tvt					
* ASAP Vers		3.1X1					
		Number: 234	89504823				
* Transactio	n Control	Type: send					
		September 1	9, 2022				
* Total Reco							
* Duplicate

* Records Ir	nported w	ith Warning C	Count: ###				

## 7.3 Zero Report Confirmation

You will receive a *Zero Report Confirmation* after successfully submitting a zero report to PMP Clearinghouse. This report displays the PMP to which the zero report was submitted, date range for the zero report, date the zero report was submitted to PMP Clearinghouse, and date the report was originally created.

An example Zero Report Confirmation is provided below.

SUBJ: ASAP Zero Report: zero\_reports\_20220306KSMCPS.DAT

#### BODY:

#### Summary:

\* File Name: zero\_reports\_20220306KSMCPS.DAT

\* PMP Name: Arkansas

\* Date Range: 2022-03-06 - 2022-03-06

\* Submission Date: 2022-03-07 \* ASAP Creation Date: 2022-03-07

## 8 Managing Your Upload Account

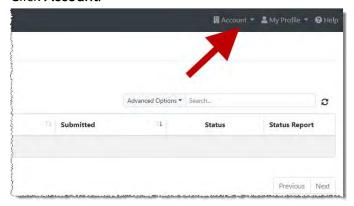

The **Account** menu option allows you to manage the information associated with your organization's upload account, including adding users, PMPs, and SFTP access to your account as well as editing your organization's account information.

**Note:** This chapter contains information for managing the upload account with which your user account is associated. For information about editing and managing your individual user account, including how to change your password, please refer to <u>Managing Your User Profile</u>.

## 8.1 Adding Users to Your Upload Account

PMP Clearinghouse allows data submitters to add new users to the system who have the same rights and access to submitting data and viewing file status. This practice allows you to create an account to be used for a backup individual.

- 1. Log in to PMP Clearinghouse.
- 2. Click Account.

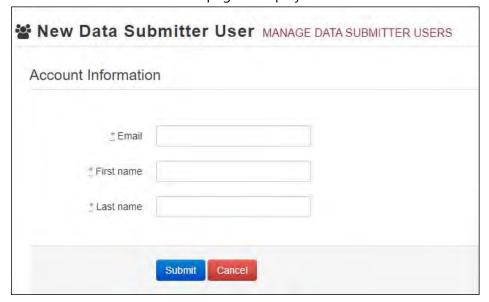

3. Select **Users** from the **Account** drop-down menu.

The Account Users page is displayed.

4. Click **New User**, located in the top right corner of the page.

The New Data Submitter User page is displayed.

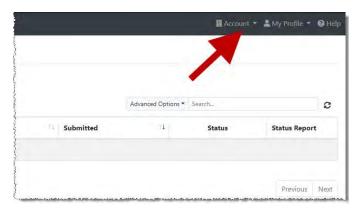

- 5. Enter the new data submitter's email address, first name, and last name in the appropriate fields. *Note that all fields are required.*
- 6. Click Submit.

The user is added to the list of data submitters for your organization, and you are returned to the Account Users page.

- 7. Please inform the new user of the account creation.
  - a. The user will receive an email with a link for them to confirm their account.
  - b. Once the account has been confirmed, the user will need to navigate to the PMP Clearinghouse Login page and click **Forgot your password?** to create a password for their account and log in.
  - c. Upon logging in, the user will be able to view all files submitted for your organization's upload account.

### 8.1.1 Changing Another User's Password

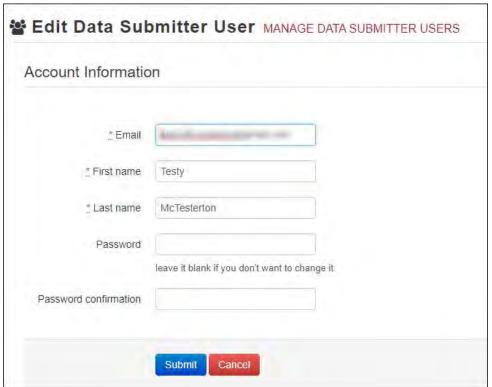

- 5. Log in to PMP Clearinghouse.
- 6. Click Account.

7. Select **Users** from the **Account** drop-down menu. The Account Users page is displayed.

8. Click the **Edit** button, located to the right of the user's information. The Edit Data Submitter User page is displayed.

9. Enter a new password for the user in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

#### Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.

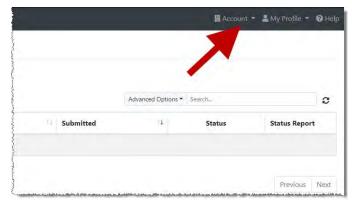

#### 10. Click Submit.

The password is changed.

## 8.2 Adding PMPs to Your Upload Account

If your organization needs to submit data files to an additional PMP that uses PMP AWARXE, you can submit the request through PMP Clearinghouse.

- 1. Log in to PMP Clearinghouse.
- 2. Click Account.

3. Select Multi State Approval from the Account drop-down menu.

The **Multi State Approval** page is displayed. This page displays all PMPs currently using the PMP AWARXE system as well as your data sharing status with each PMP.

4. To request to submit data to another PMP, click to select the checkbox next to that PMP.

PMP Clearinghouse automatically saves your changes, and your request is submitted to the PMP administrator for review and approval. Once the request has been approved, the status for that PMP will change from "Pending" to "Approved," and you may begin submitting data to that PMP.

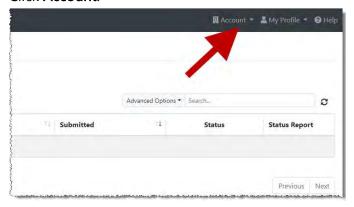

#### Notes:

- If you are submitting data via SFTP, the file must be located in the proper sub-folder to ensure delivery to the desired PMP.
- To cancel data submission to a PMP, uncheck the box for that PMP. Note that if you need to submit data to that PMP again in the future, you will have to go through the approval process again.

## 8.3 Adding SFTP Access to an Upload Account

If a registered upload account did not request an SFTP account during the account creation process, you can request one at any time using the **Account** menu option.

- 1. Log in to PMP Clearinghouse.
- 2. Click Account.

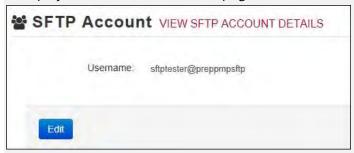

3. Select **SFTP Details**.

The SFTP Account page is displayed.

**Note:** If an SFTP account already exists for the upload account, the username is displayed on the SFTP Account page.

You cannot change the SFTP account username; however, you can update the password by clicking **Edit**.

4. Click Create.

The Create a New SFTP Account page is displayed.

5. Enter a username for the account in the **Name** field.

#### Notes:

- The username must contain a minimum of eight (8) characters.
- Once the SFTP account has been created, you cannot change the username.
- 6. Enter a password for the account in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number

• One (1) special character, such as !, @, #, \$, etc.

Once the account has been successfully created, this password will be input into the pharmacy software so that submissions can be automated.

#### Notes:

- This password can be the same as the one used when the upload account was created.
- Unlike your Profile password (i.e., your user account password), the SFTP password does not expire.
- The URL to connect via SFTP is <a href="style="style-type: style-type: style
- Additional details on SFTP configuration can be found in <u>Appendix C:</u> SFTP Configuration.

#### 7. Click Create.

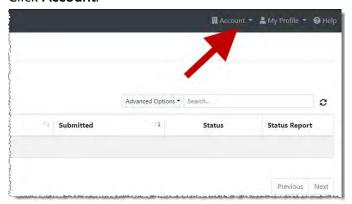

The account is created, and the username is displayed.

## 8.4 Editing Your Upload Account

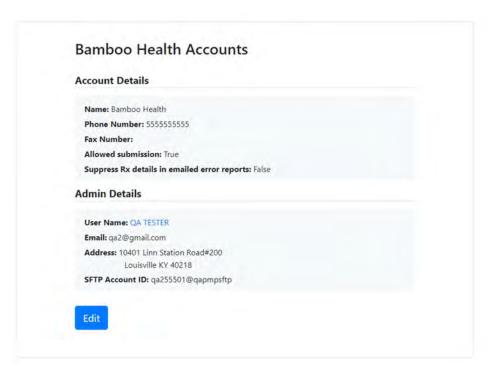

**Note:** This function only allows you to edit your organization's upload account. If you need to edit your individual profile information, please refer to <u>Editing Your Profile</u>.

- 1. Log in to PMP Clearinghouse.
- Click Account.

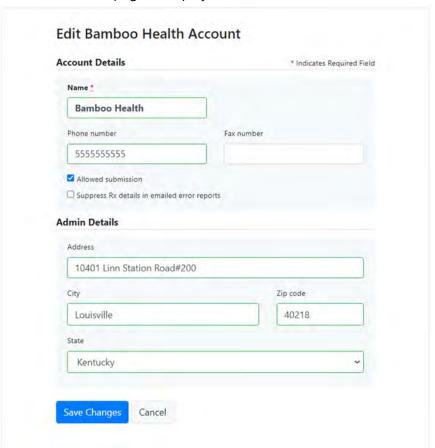

#### Select Account Details.

The Account page is displayed as shown on the following page.

#### 4. Click Edit.

The Edit Account page is displayed.

5. Update the information as necessary, then click **Submit**. The account information is updated.

## 9 Managing Your User Profile

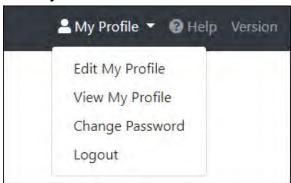

This chapter describes how to manage your individual user profile, including how to edit your profile and manage your password.

**Note:** This chapter contains information for managing your individual user profile. For information about managing your organization's upload account, including how to add users, please refer to <u>Managing Your Upload Account</u>.

## 9.1 Editing Your Profile

**Note:** This function only allows you to edit your individual profile information. If you need to edit the Organization Information, please refer to <u>Editing Your Upload Account</u>.

- 1. Log in to PMP Clearinghouse.
- 2. Click My Profile.

3. Select **Edit My Profile**.

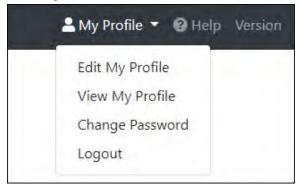

Update your information as necessary, then click Submit.
 Your changes are saved, and your updated profile is displayed.

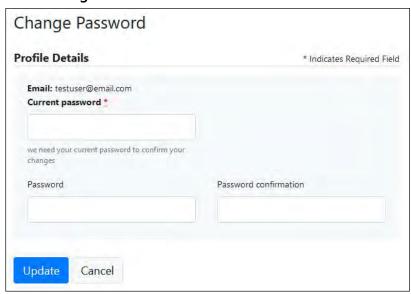

## 9.2 Changing Your Password

**Note:** Clearinghouse passwords expire every 90 days. You can use this function to proactively change your password before it expires. If your password has already expired, or you have forgotten your password, navigate to the PMP Clearinghouse Login page and click **Forgot your password?** to reset it. Please refer to <u>Resetting Your Password</u> for more information.

- 1. Log in to PMP Clearinghouse.
- 2. Click My Profile.

3. Select Change Password.

- 4. Enter your current password in the Current Password field.
- 5. Enter your new password in the **Password** field, then re-enter it in the **Password confirmation** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter

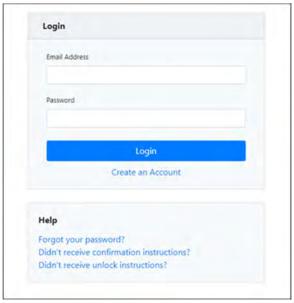

- One (1) number
- One (1) special character, such as !, @, #, \$, etc.
- 6. Click **Update**.

Your password is updated, and you will use it the next time you log in to PMP Clearinghouse.

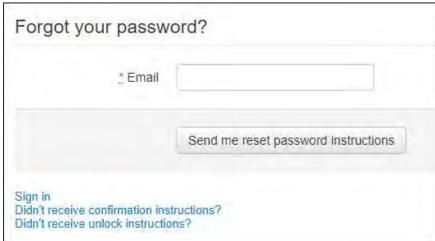

## 9.3 Resetting Your Password

If you have forgotten your password or your password has expired, perform the following steps to reset it.

1. Open an internet browser window and navigate to the PMP Clearinghouse Login page located at <a href="https://pmpclearinghouse.net/users/sign">https://pmpclearinghouse.net/users/sign</a> in.

2. Click the **Forgot your password?** link, located in the Help section of the page. The Forgot your password page is displayed.

- 3. Enter the email address associated with your user account, then click **Send me** reset password instructions.
- 4. Once you receive the reset password email, click the **Change my password** link within the email.

The Change your password page is displayed.

5. Enter your new password in the **New password** field, then re-enter it in the **Confirm your new password** field. The password requirements are provided below.

Passwords must contain:

- At least eight (8) characters
- One (1) uppercase letter
- One (1) lowercase letter
- One (1) number
- One (1) special character, such as !, @, #, \$, etc.
- 6. Click Change my password.

Your password is changed, and you can now use it to log in to PMP Clearinghouse.

## 10 Assistance and Support

#### 10.1 Technical Assistance

If you need additional help with any of the procedures outlined in this guide, you can:

- Contact Bamboo Health at 1-866-792-8917;
   OR
- Create a support request at the following URL: <a href="https://pmpclearinghouse.zendesk.com/hc/en-us/">https://pmpclearinghouse.zendesk.com/hc/en-us/</a>
- Technical assistance is available Monday through Friday (except for holidays) from 8:00 a.m. to 5:00 p.m. Central Standard Time.

#### 10.2 Administrative Assistance

If you have non-technical questions regarding the AR PDMP, please contact:

Jamie Turpin Arkansas Department of Health 4815 West Markham, Slot 10 Little Rock, AR 72205

Phone: (501) 683-3960

Fax: (501) 369-6794

Email: <u>JamieTurpin@arkansas.gov</u>

## 11 Document Information

## 11.1 Disclaimer

Bamboo Health has made every effort to ensure the accuracy of the information in this document at the time of printing. However, information is subject to change.

## 11.2 Change Log

Version	Date	Chapter/Section	Change Made
1.0	09/20/2017	N/A	N/A; initial publication
1.1	09/26/2017	Global	Added information regarding reporting requests
			Removed tramadol from data collection requirements
2.0	11/07/2018	Global	Updated to current document template
		10.2/Administrative Assistance	Updated contact information (email address)
		Appendix D/UCF	Added fax number
2.1	11/20/2018	10.2/Administrative Assistance	Updated PMP Administrator information
2.2	06/17/2019	Global	Updated screenshots to reflect updated user interface (note that this is only a cosmetic change; no functionality changes are included)
		6.2/UCF Listings	Added clarification on correcting UCF errors
2.3	01/22/2020	5.4/Zero Reports	Separated into two sections (Submit a Single-Click Zero Report and Create a New Zero Report) to reflect the addition of the single-click zero report submission functionality
		5.4.1/Submit a Single-Click Zero Report	Added new section with instructions for submitting a single-click zero report
		6.3.3/ Error Correction via File Submission	Added clarification on correcting errors by submitting a revision file using 01 (revise) in the DSP01 field

Document Information

2.4	10/08/2022	Global	Updated guide to reflect Bamboo
			Health's branding

## Appendix A: ASAP 4.2 Specifications

The information on the following pages contains the definitions for the specific contents required of uploaded records in the American Society for Automation in Pharmacy (ASAP) format to comply with the AR PDMP requirements.

The following elements are used in each upload file:

- Segment Identifier indicates the beginning of a new segment, for example, PHA.
- Data Delimiter character used to separate segments and the data elements within a segment, for example, an asterisk (\*).
  - Each completed field should be followed by an asterisk, and each blank field should contain a single asterisk.
  - If the last field in the segment is blank, it should contain an asterisk and a tilde (~).
- **Segment Terminator** character used to mark the end of a segment, for example, the tilde (~).

**Note**: Field TH09 in the Transaction Header segment contains a built-in segment terminator. Since TH09 also signifies the end of the segment, it should contain two tildes (~~).

#### Requirement

- RR = Required by the AR PDMP
- R = Required by ASAP
- N = Not required but accepted if submitted
- S = Situational (not required; however, supply if available)

Both "R" and "RR" fields must be submitted.

**Note**: For more information, contact the American Society for Automation in Pharmacy for the full Implementation Guide for the ASAP Standard for Prescription-Monitoring Programs. That guide includes some field attributes, and examples.

Segment	Element ID	Element Name	Requirement
TH: Transac	tion Header (	(required)	
l		t of a transaction. It also assigns the data element separator, segr	nent
terminator,	and control i	number.	
	TH01	Version/Release Number	R
		Code uniquely identifying the transaction.	
		Format = xx.x	
	TH02	Transaction Control Number	R
		Sender assigned code uniquely identifying a transaction.	
	TH03	Transaction Type	R
		Identifies the purpose of initiating the transaction.	
		01 Send/Request Transaction	
		02 Acknowledgement (used in Response only)	
		03 Error Receiving (used in Response only)	
		04 Void (used to void a specific Rx in a real-time	
		transmission or an entire batch that has been transmitted)	
	TH04	Response ID	S
		Contains the Transaction Control Number of a transaction that	
		initiated the transaction. Required in response transaction only.	
	TH05	Creation Date	R
		Date the transaction was created.	
		Format: CCYYMMDD.	
	TH06	Creation Time	R
		Time the transaction was created.	
		Format: HHMMSS or HHMM.	
	TH07	File Type	R
		• P = Production	
		• T = Test	
	TH08	Routing Number	S
		Reserved for real-time transmissions that go through a	
		network switch to indicate, if necessary, the specific PMP the transaction should be routed to.	
	TH09		R
	נטחון	Segment Terminator Character This terminates the TH segment and sets the actual value of	ĸ
		the data segment terminator for the entire transaction.	
IS: Informati	ion Source (r		
		equired) he and identification numbers of the entity supplying the informati	on
3364 10 601	IS01	7 113 3	R R
	1301	Unique Information Source ID  Reference number or identification number.	ĸ
		(Example: phone number)	

Segment	Element ID	Element Name	Requirement
	IS02	Information Source Entity Name	R
		Entity name of the Information Source.	
	IS03	Message	S
		Free-form text message.	
PHA: Pharm	nacy Header (ı	required)	
Used to ide	entify the pha	rmacy.	
Note: It is r PHA03.	equired that i	information be provided in at least one of the following fields: PH	A01, PHA02, or
	PHA01	National Provider Identifier (NPI)	RR
		Identifier assigned to the pharmacy by CMS.	
	PHA02	NCPDP/NABP Provider ID	S
		Identifier assigned to pharmacy by the National Council for Prescription Drug Programs.	
	PHA03	DEA Number	RR
		Identifier assigned to the pharmacy by the Drug Enforcement Administration.	
	PHA04	Pharmacy Name	RR
		Free-form name of the pharmacy or dispensing practitioner's name.	
	PHA05	Address Information – 1	RR
		Free-form text for address information.	
	PHA06	Address Information – 2	S
		Free-form text for address information.	
	PHA07	City Address	RR
		Free-form text for city name.	
	PHA08	State Address	RR
		U.S. Postal Service code.	
	PHA09	ZIP Code Address	RR
		U.S. Postal Service ZIP Code.	
	PHA10	Phone Number	S
		Complete phone number including area code.	
	PHA11	Contact Name	S
		Free-form name.	
	PHA12	Chain Site ID	S
		Store number assigned by the chain to the pharmacy location. Used when the PMP needs to identify the specific pharmacy from which information is required.	

Segment	Element ID	Element Name	Requirement				
PAT: Patient	Information	(required)					
Used to rep	Used to report the patient's name and basic information as contained in the pharmacy record.						
	PAT01	ID Qualifier of Patient Identifier	S				
		Code identifying the jurisdiction that issues the ID in PAT03.					
	PAT02	ID Qualifier	S				
		Code to identify the type of ID in PAT03. If PAT02 is used, PAT03 is required.  • 01 Military ID					
		02 State Issued ID					
		03 Unique System ID					
		04 Permanent Resident Card (Green Card)					
		05 Passport ID					
		06 Driver's License ID					
		08 Tribal ID					
		99 Other (agreed upon ID)					
	PAT03	ID of Patient	S				
		Identification number for the patient as indicated in PAT02.					
ļ		An example would be the driver's license number.					
	PAT04	ID Qualifier of Additional Patient Identifier	S				
		Code identifying the jurisdiction that issues the ID in PAT06.					
ļ		Used if the PMP requires such identification.					
	PATO6	Additional Patient ID Qualifier  Code to identify the type of ID in PAT06 if the PMP requires a second identifier. If PAT05 is used, PAT06 is required.  • 01 Military ID  • 02 State Issued ID  • 03 Unique System ID  • 04 Permanent Resident Card  • 05 Passport ID  • 06 Driver's License ID  • 08 Tribal ID  • 99 Other (agreed upon ID)	S				
	PAT06	Additional ID  Identification that might be required by the PMP to further identify the individual. An example might be that in PAT03 driver's license is required and in PAT06 Social Security number is also required.	S				
	PAT07	Last Name	RR				
		Patient's last name.					

Segment	Element ID	Element Name	Requirement
	PAT08	First Name	RR
		Patient's first name.	
	PAT09	Middle Name	S
		Patient's middle name or initial if available.	
	PAT10	Name Prefix	S
		Patient's name prefix such as Mr. or Dr.	
	PAT11	Name Suffix	S
		Patient's name suffix such as Jr. or the III.	
	PAT12	Address Information – 1	RR
		Free-form text for street address information.	
	PAT13	Address Information – 2	S
		Free-form text for additional address information.	
	PAT14	City Address	RR
		Free-form text for city name.	
	PAT15	State Address	RR
		U.S. Postal Service code.	
	PAT16	ZIP Code Address	RR
		U.S. Postal Service ZIP code.	
		Populate with zeros if patient address is outside the U.S.	
	PAT17	Phone Number	S
		Complete phone number including area code.	
	PAT18	Date of Birth	RR
		Date patient was born.	
		Format: CCYYMMDD	
	PAT19	Gender Code	RR
		Code indicating the sex of the patient.	
		F Female	
		M Male	
		U Unknown	
	PAT20	Species Code	S
		Used if required by the PMP to differentiate a prescription for	
		an individual from one prescribed for an animal.	
		• 01 Human	
		02 Veterinary Patient	

Segment	Element ID	Element Name	Requirement
	PAT21	Patient Location Code	S
		Code indicating where patient is located when receiving	
		pharmacy services.	
		• 01 Home	
		02 Intermediary Care	
		03 Nursing Home	
		04 Long-Term/Extended Care	
		05 Rest Home	
		06 Boarding Home	
		07 Skilled-Care Facility	
		08 Sub-Acute Care Facility	
		09 Acute Care Facility	
		• 10 Outpatient	
		• 11 Hospice	
		98 Unknown	
		99 Other	
	PAT22	Country of Non-U.S. Resident	S
		Used when the patient's address is a foreign country.	
	PAT23	Name of Animal	S
		Used if required by the PMP for prescriptions written by a	
		veterinarian and the pharmacist has access to this information	
		at the time of dispensing the prescription.	
· ·	•	(required)  c components of a dispensing of a given prescription order include	ding the date
	DSP01	Reporting Status	R
		DSP01 requires one of the following codes, and an empty or	
		blank field no longer indicates a new prescription transaction:	
		00 New Record (indicates a new prescription dispensing transaction)	
		01 Revise (indicates that one or more data element values	
		in a previously submitted transaction are being revised)	
		02 Void (message to the PMP to remove the original	
		prescription transaction from its data, or to mark the record as invalid or to be ignored).	
	DSP02	Prescription Number	RR
		Serial number assigned to the prescription by the pharmacy.	
	DSP03	Date Written	RR
		Date the prescription was written (authorized).	
		Format: CCYYMMDD	
	1	l .	

Segment Element ID Element Name	Requirement
DSP04 Refills Authorized	RR
The number of refills authorized by the prescriber.	
DSP05 Date Filled	RR
Date prescription was filled.	
Format: CCYYMMDD	
DSP06 Refill Number	RR
Number of the fill of the prescription.	
0 indicates New Rx; 01-99 is the fill number.	
DSP07 Product ID Qualifier	RR
Used to identify the type of product ID contained in DSP	08.
• 01 NDC	
06 Compound (indicates a compound; if used, the CI	DI
segment becomes a required segment)	
DSP08 Product ID	RR
Full product identification as indicated in DSP07, including	ıg
leading zeros without punctuation.	
DSP09 Quantity Dispensed	RR
Number of metric units dispensed in metric decimal form	nat.
Example: 2.5	
Note: For compounds show the first quantity in CDI04.	
DSP10 Days' Supply	RR
Estimated number of days the medication will last.	
DSP11 Drug Dosage Units Code	S
Identifies the unit of measure for the quantity dispensed	in
DSP09.	
• 01 Each	
• 02 Milliliters (ml)	
• 03 Grams (gm)	
DSP12 Transmission Form of Rx Origin Code	S
Code indicating how the pharmacy received the prescript	tion.
01 Written Prescription     02 Tolophone Prescription	
<ul> <li>02 Telephone Prescription</li> <li>03 Telephone Emergency Prescription</li> </ul>	
03 Telephone Emergency Prescription     04 Fax Prescription	
04 rax riescription     05 Electronic Prescription	
99 Other	

Segment	Element ID	Element Name	Requirement
	DSP13	Partial Fill Indicator Used when the quantity in DSP 09 is less than the metric quantity per dispensing authorized by the prescriber. This dispensing activity is often referred to as a split filling.  • 00 Not a Partial Fill  • 01 First Partial Fill  Note: For additional fills per prescription, increment by 1. So, the second partial fill would be reported as 02, up to a maximum of 99.	S
	DSP14	Pharmacist National Provider Identifier (NPI) Identifier assigned to the pharmacist by CMS. This number can be used to identify the pharmacist dispensing the medication.	S
	DSP15	Pharmacist State License Number This data element can be used to identify the pharmacist dispensing the medication. Assigned to the pharmacist by the State Licensing Board.	S
	DSP16	Classification Code for Payment Type Code identifying the type of payment (i.e., how it was paid for).  O1 Private Pay  O2 Medicaid  O3 Medicare  O4 Commercial Insurance  O5 Military Installations and VA  O6 Workers' Compensation  O7 Indian Nations  99 Other	RR
	DSP17	Date Sold Usage of this field depends on the pharmacy having a point-of-sale system that is integrated with the pharmacy management system to allow a bidirectional flow of information.	S
	DSP18	<ul> <li>RxNorm Product Qualifier</li> <li>01 Semantic Clinical Drug (SCD)</li> <li>02 Semantic Branded Drug (SBD)</li> <li>03 Generic Package (GPCK)</li> <li>04 Branded Package (BPCK)</li> </ul>	S
	DSP19	RxNorm Code  Used for electronic prescriptions to capture the prescribed drug product identification.	S

Segment	Element ID	Element Name	Requirement
	DSP20	Electronic Prescription Reference Number	S
		Used to provide an audit trail for electronic prescriptions.	
		Note: DSP20 and DSP21 should be reported as a pair to the	
		prescription drug monitoring program, and each program	
		decides which one, if not both, it decides to capture.	
	DSP21	Electronic Prescription Order Number	S
		<b>Note:</b> DSP20 and DSP21 should be reported as a pair to the	
		prescription drug monitoring program, and each program decides which one, if not both, it decides to capture.	
PRE: Prescrib	per Information	· · · · · · · · · · · · · · · · · · ·	<u> </u>
Used to ide	ntify the pres	criber of the prescription.	
	PRE01	National Provider Identifier (NPI)	S
		Identifier assigned to the prescriber by CMS.	
	PRE02	DEA Number	RR
		Identifying number assigned to a prescriber or an institution by	
		the Drug Enforcement Administration (DEA).	
	PRE03	DEA Number Suffix	S
		Identifying number assigned to a prescriber by an institution	
		when the institution's number is used as the DEA number.	
	PRE04	Prescriber State License Number	S
		Identification assigned to the prescriber by the State Licensing Board.	
	PRE05	Last Name	RR
		Prescriber's last name.	
	PRE06	First Name	RR
		Prescriber's first name.	
	PRE07	Middle Name	S
		Prescriber's middle name or initial.	
	PRE08	Phone Number	S
CDI: Compo	ound Drug Inc	gredient Detail (situational)	
Use of this s a PMP repo drug, then t	segment is re rting drug. If his would be	quired when medication dispensed is a compound and one of th more than one ingredient is for a prescription monitoring progra incremented by one for each compound ingredient being report of DSP08 must be 99999999999999999999999999999999999	m reporting
	CDI01	Compound Drug Ingredient Sequence Number	R
		First reportable ingredient is 1; each additional reportable ingredient is incremented by 1.	

Segment	Element ID	Element Name	Requirement
	CDI02	Product ID Qualifier	R
		Code to identify the type of product ID contained in CDI03.	
		• 01 NDC	
		• 02 UPC	
		• 03 HRI	
		• 04 UPN	
		• 05 DIN	
		06 Compound (this code is not used in this segment)	
	CDI03	Product ID	R
		Full product identification as indicated in CDI02, including leading zeros without punctuation.	
	CDI04	Compound Ingredient Quantity	R
		Metric decimal quantity of the ingredient identified in CDI03.	
		Example: 2.5	
	CDI05	Compound Drug Dosage Units Code	S
		Identifies the unit of measure for the quantity dispensed in CDI04.	
		01 Each (used to report as package)	
		02 Milliliters (ml) (for liters, adjust to the decimal milliliter equivalent)	
		03 Grams (gm) (for milligrams, adjust to the decimal gram equivalent)	
AIR: Additio	nal Informati	on Reporting (situational)	
		serialized Rx pads are used, the PMP requires information on the up the prescription, or for data elements not included in other details.	•
Note: If this	segment is u	sed, at least one of the data elements (fields) will be required.	
	AIR01	State Issuing Rx Serial Number	S
		U.S.P.S. code of state that issued serialized prescription blank.	
		This is required if AIR02 is used.	
	AIR02	State Issued Rx Serial Number	S
		Number assigned to state issued serialized prescription blank.	
	AIR03	Issuing Jurisdiction	S
		Code identifying the jurisdiction that issues the ID in AIR05.	

Segment	t Element ID Element Name				
	AIRO4	ID Qualifier of Person Dropping Off or Picking Up Rx Used to identify the type of ID contained in AIR05 for person dropping off or picking up the prescription.  O1 Military ID  O2 State Issued ID  O3 Unique System ID  O4 Permanent Resident Card (Green Card)  O5 Passport ID  O6 Driver's License ID  O8 Tribal ID  99 Other (agreed upon ID)	S		
	AIR05	ID of Person Dropping Off or Picking Up Rx ID number of patient or person picking up or dropping off the prescription.	S		
	AIR06	Relationship of Person Dropping Off or Picking Up Rx Code indicating the relationship of the person.  1 Patient 2 Parent/Legal Guardian 3 Spouse 4 O4 Caregiver 5 99 Other	S		
	AIR07	Last Name of Person Dropping Off or Picking Up Rx Last name of person picking up the prescription.	S		
	AIR08	First Name of Person Dropping Off or Picking Up Rx First name of person picking up the prescription.	S		
	AIR09	Last Name or Initials of Pharmacist  Last name or initials of pharmacist dispensing the medication.	S		
	AIR10	First Name of Pharmacist First name of pharmacist dispensing the medication.	S		
	AIR11	Dropping Off/Picking Up Identifier Qualifier Additional qualifier for the ID contained in AIR05  10 Person Dropping Off 20 Person Picking Up 20 Yes Unknown/Not Applicable Note: Both 01 and 02 cannot be required by a prescription drug monitoring program.	S		

#### TP: Pharmacy Trailer (required)

Used to identify the end of data for a given pharmacy and provide the count of the total number of detail segments reported for the pharmacy, including the PHA and TP segment.

Segment	Element ID	lement ID Element Name					
	TP01 Detail Segment Count						
	Number of detail segments included for the pharmacy including the pharmacy header (PHA) and the pharmacy trailer (TP) segments.						
TT: Transact	ion Trailer (re	quired)					
	Used to indicate the end of the transaction and provide the count of the total number of segments included in the transaction.						
	TT01	Transaction Control Number	R				
		Identifying control number that must be unique.					
	Assigned by the originator of the transaction.						
	Must match the number in TH02.						
	TT02	Segment Count	R				
	Total number of segments included in the transaction including the header and trailer segments.						

# Appendix B: ASAP Zero Report Specifications

The following table contains the required definitions for submitting zero reports via SFTP or manual upload to the AR PMP. It lists the **Segment** and **Element ID** with pre-populated data to be used as an example for constructing a zero report. For more details regarding these Segment or Elements IDs, or for details on reporting actual dispensations, please refer to <u>Appendix A: ASAP 4.2 Specifications</u>.

```

## Appendix C: SFTP Configuration

This appendix describes the SFTP configurations required to upload your data to PMP Clearinghouse.

**Note:** Submitting data via SFTP requires that you have an existing PMP Clearinghouse account with SFTP access.

- If you need to create a PMP Clearinghouse account, please refer to <u>Creating Your Account</u>. You will be able to set up your SFTP account during the account creation process.
- If you have an existing PMP Clearinghouse account but do not have SFTP access, please refer to Adding SFTP Access to an Upload Account.

#### **SFTP Connection Details**

#### Hostname: sftp.pmpclearinghouse.net

Bamboo Health recommends that you use the hostname when configuring the connection rather than the IP address, as the IP address is subject to change.

#### Port: 22

Note: The port will always be 22.

- Credentials: Your SFTP account credentials (username and password) can be found
  within the PMP Clearinghouse website. To locate your credentials, <u>log in to PMP</u>
  Clearinghouse, then click *Account > SFTP Details > Edit*.
- Your username cannot be modified; however, you can update your password.

  Note: Your current SFTP password cannot be seen or recovered. If you have forgotten or lost it, you will need to create a new one. For more information on changing the SFTP password, please refer to Adding SFTP Access to an Upload Account.
- Once you have established SFTP access, you can test the SFTP connection, but you
  will not be able to submit data to a PMP until your account has been approved by
  the PMP administrator.

#### **PMP Subfolders**

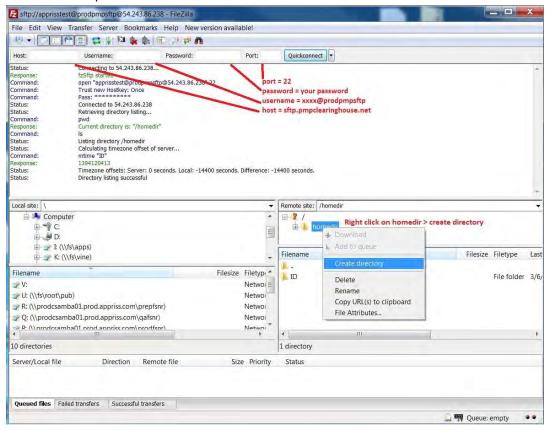

PMP Clearinghouse is the data repository for numerous PMPs. As such, data submitted via SFTP must be placed in the appropriate folder for the PMP for which you are submitting data so that it can be properly imported to that PMP. The creation of subfolders must be done outside of the PMP Clearinghouse website using third-party software, such as an SSH client or a command line utility. Files placed in the root/home directory of the SFTP server will not be imported, as this will cause the dispensing entity to appear as noncompliant/delinquent.

Your pharmacy software will need to be configured to place files in the appropriate PMP folder when submitting. You may need to contact your software vendor for additional assistance with this process.

**NOTE**: Capitalization of the abbreviated PMP folders' names has no bearing on whether or not Clearinghouse processes the files; however, some pharmacy systems, especially \*nix-based systems, will require that the exact case is used when specifying the target folder.

There are two methods by which to create PMP subfolders for SFTP submissions:

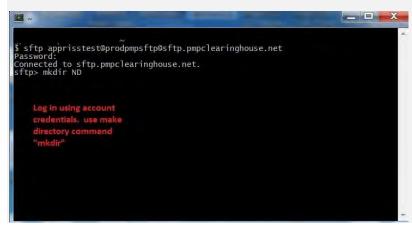

- 1. Via SSH client (e.g., WinSCP, FileZilla, etc.)
  - a. Log in to your SFTP account.
  - b. Create the required directories under /homedir.

#### 2. Via command prompt

- a. Log in to your SFTP account using command prompt.
- b. Type "**mkdir**" followed by a space and then the PMP abbreviation you are using (e.g., *mkdir AR*).

**NOTE:** The PMP folder must be titled with the two-letter abbreviation as specified above.

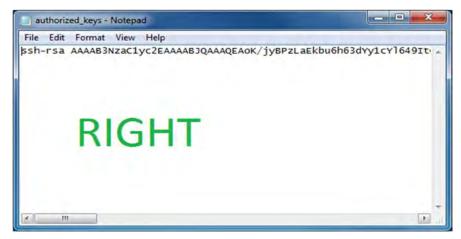

## Public (SSH/RSA) Key Authentication

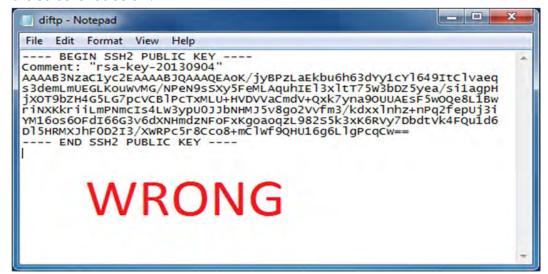

PMP Clearinghouse supports SSH key authentication. The generation of the key is outside the scope of this document; however, general guidelines about the key, along with how to import/load it, are provided below.

#### Note: PGP Encryption is not supported.

- Supported Key Types:
  - SSH-2 RSA 2048 bit length
- Unsupported Key Types:
  - SSH-1 RSA
  - SSH-2 DSA
- Correct Public Key Format: If opened in a text editor, the key should look like the screenshot below.

• Incorrect Public Key Format: If opened in a text editor, the key SHOULD NOT look like the screenshot below.

Once the key has been generated, it should be named "authorized\_keys".

#### Notes:

- There is no file extension.
- There is an underscore between the words authorized and keys.
- A .ssh subfolder needs to be created in the SFTP account's home directory. The
   "authorized\_keys" file must be placed in the .ssh folder. The creation of this folder
   follows the same process as creating a PMP subfolder. Please refer to PMP
   Subfolders for steps on creating subfolders.

## Appendix D: Universal Claim Form

The Universal Claim Form is provided on the following page.

## Arkansas Prescription Drug Monitoring Program Universal Claim Form for Veterinary Clinics

Arkansas requires that ALL Prescriptions for Schedule II-V
Controlled Substances dispensed to be reported to the Arkansas
Department of Health <u>every 30 days.</u>

Patient Information
